

Creating IAM users

Activities Brave Web Browser Sep 6 3:55 PM

slack | training-cloud-de | Introduction to AWS Identity IAM Management Console

console.aws.amazon.com/iam/home#/users\$new?step=details

Add user

1 2 3 4 5

Set user details

You can add multiple users at once with the same access type and permissions. [Learn more](#)

User name*

[Add another user](#)

Select AWS access type

Select how these users will access AWS. Access keys and autogenerated passwords are provided in the last step. [Learn more](#)

Access type* ☐ Programmatic access
Enables an **access key ID** and **secret access key** for the AWS API, CLI, SDK, and other development tools.

☒ **AWS Management Console access**
Enables a **password** that allows users to sign-in to the AWS Management Console.

Console password* ☐ Autogenerated password
☒ Custom password

☐ Show password

Require password reset ☐ User must create a new password at next sign-in
Users automatically get the **IAMUserChangePassword** policy to allow them to change their own password.

* Required [Cancel](#) [Next: Permissions](#)

console.aws.amazon.com/iam/home#/users\$new?step=tags&login&userNames=user4&passwordType=manual&permission...

Add user

1 2 3 4 5

Add tags (optional)

IAM tags are key-value pairs you can add to your user. Tags can include user information, such as an email address, or can be descriptive, such as a job title. You can use the tags to organize, track, or control access for this user. [Learn more](#)

Key	Value (optional)	Remove
<input type="text" value="First"/>	<input type="text" value="user"/>	✕
Add new key	<input type="text"/>	

You can add 49 more tags.

Adding users to group

The screenshot shows the AWS IAM Management Console in a Brave Web Browser. The page title is "S3-Support" and the breadcrumb is "IAM > User groups > S3-Support". The left sidebar shows the "Identity and Access Management (IAM)" menu with options like Dashboard, Access management, User groups, Users, Roles, Policies, Identity providers, Account settings, Access reports, Access analyzer, Archive rules, Analyzers, Settings, Credential report, Organization activity, and Service control policies (SCPs). The main content area shows the "Summary" tab for the "S3-Support" group. It displays the group name, creation time (September 06, 2021, 15:50 UTC+05:30), and ARN (arn:aws:iam::966880136039:group/s3-Support). Below the summary, there are tabs for "Users", "Permissions", and "Access advisor". The "Users" tab shows "Users in this group (0)" with a search bar and buttons for "Remove users" and "Add users". A table below shows no resources to display.

The screenshot shows the "Add users to S3-Support" page in the AWS IAM Management Console. The breadcrumb is "IAM > User groups > S3-Support > Add users". The left sidebar is the same as the previous screenshot. The main content area shows the "Add users to S3-Support" page. It displays "Other users in this account (Selected 1/5)" with a search bar and buttons for "Cancel" and "Add users". A table below shows a list of users with checkboxes for selection. The user "user-1" is selected. The table columns are "User name", "Groups", "Last activity", and "Creation time".
